WAVE SPORT

WHITEWATER PERIOD

Not exclamations. Not excuses. Or anything else that doesn't need to be there. Look, there aren't enough definites in life. But when you're in your boat, you're in control. You go anywhere your imagination and skill take you. Period. And that's enough. So for 2009, we've poured our heart and souls into boats that master the unpredictable and let you create new moves, new lines, new experiences. From freestyle to creeking, we're putting the tools in your hands (and under your butt) to go out there on your own journey and take control. Period.

FREE STYLE

Freestyle = no rules. It's you. The water. Whether it's kickflipping a mid-rapid wave on the Gauley or snapping a nasty airblunt on Buseater, this is YOUR time. Our freestyle boats have been designed to be the key that unlocks your potential. What are you waiting for? Find a river, claim your wave and express your true self to the world.

PROJECT 45

PROJECT 52

PROJECT 62

It has defined high-performance freestyle. The hull's combination of speed and pop, combined with smooth, sculpted volume distribution, are exactly why Peter Csonka picked the Project to dominate the 2008 World Cup. The air you'll be getting in this baby is unmatched. With 3 sizes, we call it the Project because it's our pet. Our always in beta boat. Our pride and joy. Paddle and believe.

PROJECT

	PROJECT 45	PROJECT 52	PROJECT 62	FEATURES
WEIGHT RANGE	80-140 lbs. • 36 kg-64 kg	130-190 lbs. • 59 kg-86 kg	180-240 lbs. • 82 kg-109 kg	• Customizable foam bulkhead system
COCKPIT	33.5"x19" • 85 cm x 48 cm	33.5"x19" • 85 cm x 48 cm	33.5"x19" • 85 cm x 48 cm	• Thermoformed seat and hull beam

LENGTH	5'11" • 180 cm	6'1" • 185 cm	6'4" • 193 cm	

RIVER PLAY

For those who want to dial it back a notch, but still have the option for some freestyle love, we've got your back. Our river-running play boats get you down river in one piece while surfing every playspot along the way. You'll get the forgiving feeling of a river-runner and the high-performance loose hull of a freestyle boat. So if you're a river-runner who sprints to surf every wave and hole along the way, you've come to the right place.

FUSE 35

FUSE 48

FUSE 56

FUSE 64

What do you call it when you bring a river-runner and freestyle boat together for one go-anywhere, do-anything boat? That's nice, but we called it Fuse. The legendary hull design is loose and fast on waves and the volume distribution is not only comfy, but hands you control whether you're throwing cartwheels or simply running your favorite stretch of river. With 4 sizes, there's a boat for everyone to get down their favorite river and tear up every single playspot along the way.

IT'S ABOUT THE
JOURNEY

RIVER RUN

Point A. Point B. And all the points in-between. Are you skirting over a jumble of manky rocks to line up for a 15-foot boof? Or maybe you're in the midst of a rapid that reminds you of the Zambezi at flood. Either way, you need a kayak that deals with any situation Mother Earth throws at you. River-running is half white-knuckle big water, half technical and all fun. And it's our job to keep it that way. So we've given you a boat that is made for that paddler that wants everything. And then some.

DIESEL 60

DIESEL 80

DIESEL 70

They've called it the 4x4 of kayaks. The SUV of river-runners. Runs rapids like a fast creekboat and also has a hull that will spin on green waves. Now it's all that and more. Peaked deck for resurfacing - check. A honed combination of planing hull and continuous rocker for the ultimate in agility - check. New outfitting that will let Sasquatch fit in a kayak - big, hairy, check. This isn't just an evolution of the original. Welcome to the next gen of river-running.

WAVE SPORT

TYLER CURTIS

PLAY & HARD &

TEAM WAVESPORT - We're gonna need a bigger trophy case. But Team Wave Sport do a lot more than just bring home national and international medals. They give loads of input to R&D and test our boats until we finally get their blessing...so you know you're paddling what they're paddling. When they're not punishing new boat designs or training for the next event, they're blazing first descents or contributing their time to a worthy cause. They put in a lot of hours and a lot of hard work. And when it comes to the journey, they always make the most of it.

CREEK- ING

Creeking is about a lot more than just getting from here to there. It's about exploring steep canyons that few paddlers have laid eyes upon or scouting for the perfect line with your buds. It's about that euphoric feeling you share after greasing a class 5+ rapid. And it's about making sure you all reach the take out in one piece. So you're gonna want to be wrapped in a boat that's solid, comfortable, responsive and safe. Ask and you shall receive. Creeking is all about the journey and the adventures that define you. You comin'?

HABITAT 74

HABITAT 80

You want a boat that gets you through whatever the moment throws at you. This is it. The bombproof step pillar, 5 metal z-drag anchors and uber-stable, soft-landing hull are mandatory when you're plunging drops that have never before been run. The Habitat holds any line you put it on - and with the lift of a knee, you'll be carving into eddies with absolute control. You like that, don'tcha? We thought you might. So if you're just getting into creeking or an old pro, we've got the Habitat for you.
