THIS IS RIVER RUN DIESEL

A TO B. AND EVERYTHING BETWEEN. There's a situation - we'll deal with it. HALF BIG WATER, HALF TECHNICAL, ALL AWESOME.

They've called it the 4x4 of kayaks. Runs rapids like a fast creekboat with a hull that will also spin on green waves. It is, indeed, all that and more. Peaked deck for resurfacing - check. A honed combination of planing hull and continuous rocker for ultimate agility - check. Outfitting that will let Sasquatch fit in a kayak - big, hairy - check. Meet the SUV of river running.

RIVER RUNNER GRAVES FREESTYLE. Forgiving, yet loose on waves. SPRINTING TO SURF. Get downstream. Don't miss the playspots. HYBRID.

THIS IS RIVER PLAY FUSE

What do you call it when you bring a river runner and freestyle boat together for one go-anywhere, do-anything boat? We called it Fuse. The legendary hull design is loose and fast on waves with volume distribution that is not only comfy, but delivers crisp control whether you're throwing cartwheels or simply running your favorite stretch of river. And with 4 sizes, there's a boat for everyone. So what are you waiting for? Get down the river and tear up every single playspot along the way.

THIS IS OUTFITTING

White is the new black with the stylish WhiteOut design for the renowned F.A.T. whitewater outfitting system. The unique, blazing white vinyl covering the seat, hip-pads, and thigh braces is water-repellant, meaning less dry time and better mildew control.

Underneath the unique look is the trusted F.A.T. system. Intuitive features and layout are the result of testing in thousands of miles (and kilometers) on rivers throughout the world.

Small details, such as low seatbacks for easy access storage, quick-adjusting thigh ratchet backband, easy-adjusting aluminum rails, and convenient grab handles become big deals on the long haul.

Major innovations, such as precision-cut, aluminum thigh braces, injection molded hooks, next-generation bulkhead system, and premium hip pad, seat pad, and backrest materials keep you in front of the pack.

BOAT SPECS- HOW WE GET THEM, WHAT THEY MEAN

WEIGHT
Based on a fully assembled boat including all outfitting. (NOTE: When comparing, other companies may not include outfitting in their weight specifications.)

CAPACITY
Field tests determine each model's capacity, with maximum being the greatest load the model can carry and still perform under typical conditions.

DIMENSIONS
Depths are measured from the highest point on the deck to the bottom of the hull directly under that point.

All Wave Sport kayaks are designed and manufactured in the U.S.A. and are covered by a 3-Year Limited Warranty. Coverage varies over the 3 years and limitations apply. Check out the website for full details: www.wavesport.com.
